

AASHU SAINI

Aspiring Software Engineer

📞 +91-8394865254 ✉ aashusaini19222277@gmail.com 📍 Jhanjeri, Punjab 🌐 GitHub 🌐 LinkedIn

Profile Summary

Aspiring Software Engineer with strong foundation in Data Structures & Algorithms and hands-on experience in software development. Proficient in C++, Python, JavaScript, HTML, and CSS with proven problem-solving ability. Passionate about writing clean, efficient, and scalable code while continuously improving through learning and real-world project development. Strong understanding of Object-Oriented Programming concepts and software engineering fundamentals.

Education

Chandigarh Group of Colleges, Jhanjeri	2023 – 2027
<i>Bachelor of Technology (Computer Science and Engineering)</i>	CGPA: 8.45
Saraswati Vidhya Mandir Inter College, Shamli	2023
<i>Senior Secondary Education (Class XII)</i>	Percentage: 79%
Saraswati Vidhya Mandir Inter College, Shamli	2021
<i>High School (Class X)</i>	Percentage: 77%

Internship Experience

Virtual Door IT Services LLP	June 2025 – July 2025
<i>Full-Stack Web Development Intern</i>	Greater Noida, Uttar Pradesh
– Successfully completed Full-Stack Web Development internship in offline mode. – Worked on responsive frontend development using HTML, CSS, and JavaScript. – Collaborated on debugging, API integration, and web application optimization. – Gained practical exposure to software development lifecycle and version control using Git & GitHub. – Improved technical problem-solving skills while working on real-world development tasks.	

Projects

MockMate.AI – Smart AI Interview System

- Developed a full-stack AI-based interview simulation platform for technical and HR interview practice.
- Implemented authentication system and personalized interview sessions with performance tracking.
- Integrated AI-based feedback system for response analysis and communication evaluation.
- Designed responsive UI and optimized REST APIs for better performance and scalability.
- **Tech Stack:** Node.js, Express.js, MongoDB, JavaScript, HTML5, CSS3

Smart Campus RFID Attendance System

- Built a smart campus attendance system using RFID technology for automated attendance management.
- Optimized backend architecture for scalability and efficient hardware utilization.
- Integrated FastAPI backend with MongoDB database and React frontend.
- **Tech Stack:** Python (FastAPI), React, MongoDB, MATLAB

Terminal Based Portfolio Website

- Developed an interactive terminal-style portfolio website with responsive UI design.
- Implemented command-based navigation and frontend interactions using JavaScript.
- **Tech Stack:** HTML5, CSS3, JavaScript

Technical Skills

Programming Languages: C++, Python, JavaScript, Java
Web Technologies: HTML5, CSS3, Node.js, Express.js, React.js (Basics)
Database: MongoDB, MySQL
Core CS Concepts: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks
Tools & Platforms: Git, GitHub, VS Code, Postman
Additional Exposure: REST APIs, Full-Stack Development, Problem Solving

Certifications

- Career Essentials in Generative AI – Microsoft, LinkedIn & AWS
- FreeCodeCamp Responsive Web Design Certification
- HackerRank SQL (Basic) and Python (Basic)
- Infosys Springboard Certifications in Python, DBMS, and SQL

Achievements

- Built multiple full-stack and AI-based projects aligned with software engineering roles.
- Strong understanding of Data Structures, Algorithms, and OOP concepts.
- Actively practicing coding and problem-solving for technical interviews and placement preparation.
